After Updating to iOS 12 .....	10

## Before You Update

- 1) Please BACKUP your iPad data to the iCloud or to your computer.
- 2) Make sure your battery is fully charged prior to starting your update OR have it plugged into a power source.

- 3) You will also have to check if you have enough storage for the update. Apple is requiring anywhere from 1.5 GB to 2.0 GB of storage (depending on the device type) when updating **over the air using WiFi**. If you [update via iTunes on a computer](#), you will not need to clear space.  
To check how much storage you have available go to Settings-General-About-Available. If you do not have enough storage, delete unnecessary apps (you can always redownload them after the update is complete in the purchased section of the App Store).

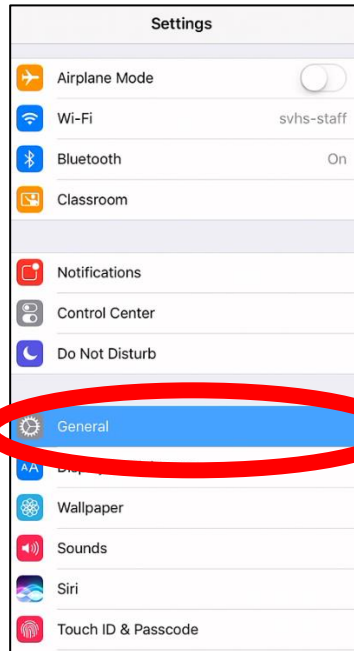

## Updating via Wi-Fi on your iPad

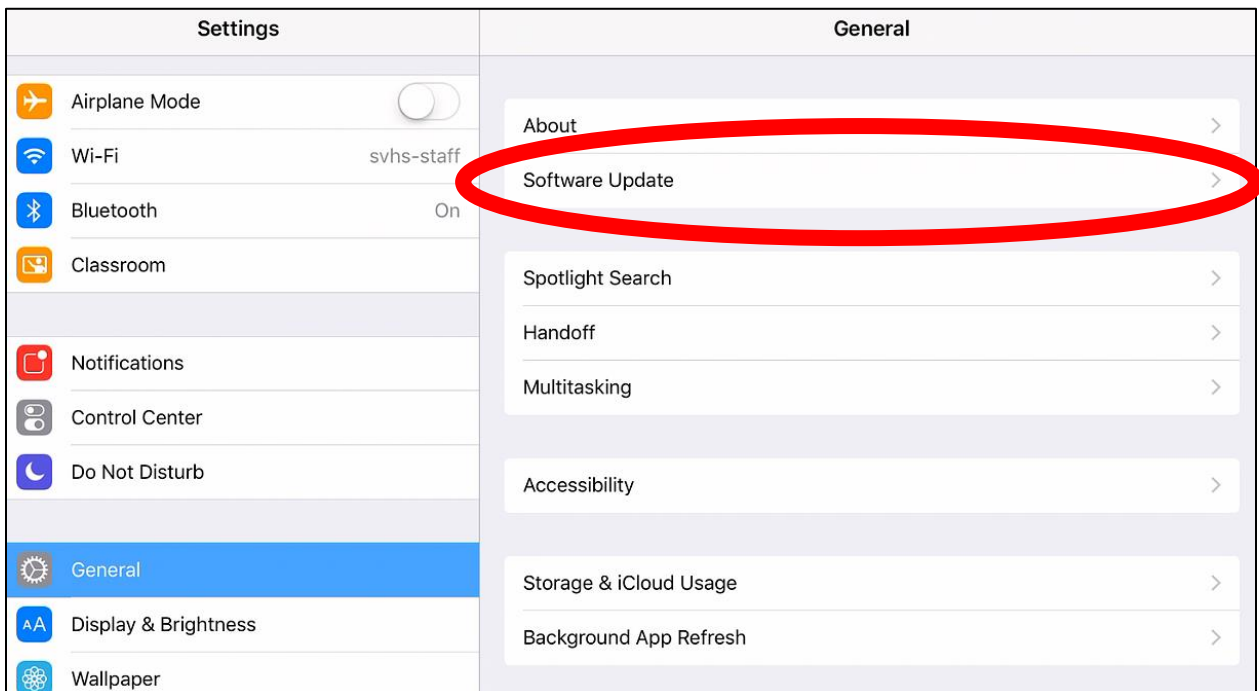

1) Tap *Settings*.

2) Choose *General* on the left navigation.

3) In *General* choose *Software Update*.

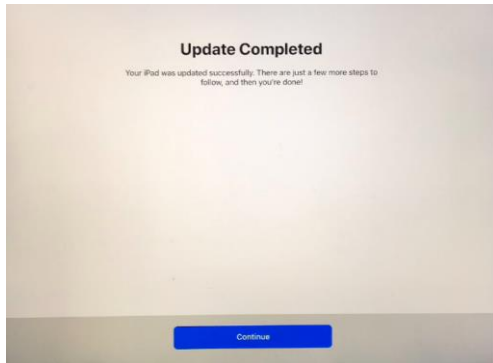

4) Tap *Install Now* to begin installation (if you do not have enough storage you will see a message and will not be able to update until you free up space). While the update is installing, please do not use your iPad. Wait until it has restarted before you begin using it again.

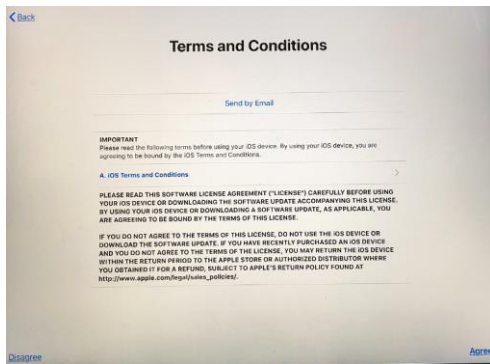

## After Updating to iOS 12

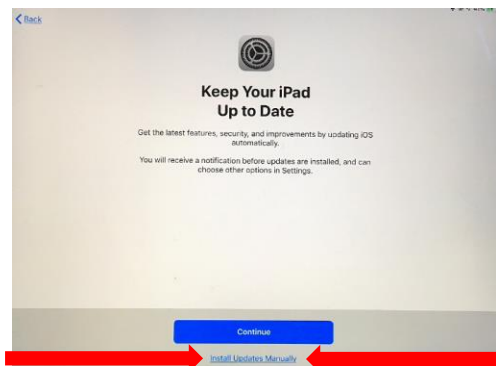

After the update, you will see several screens for new settings on your iPad. Please choose the following:

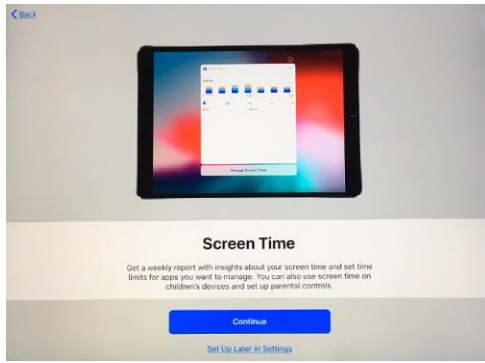

Tap *Continue*

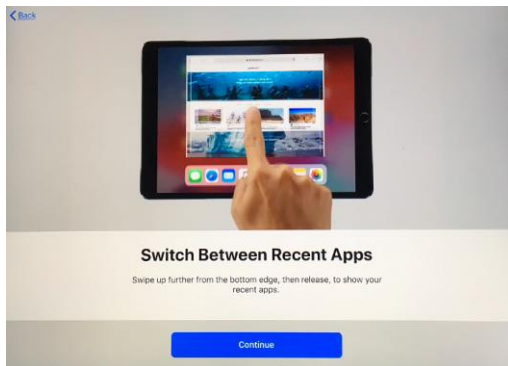

Read through the Terms and Conditions, tap *Agree*

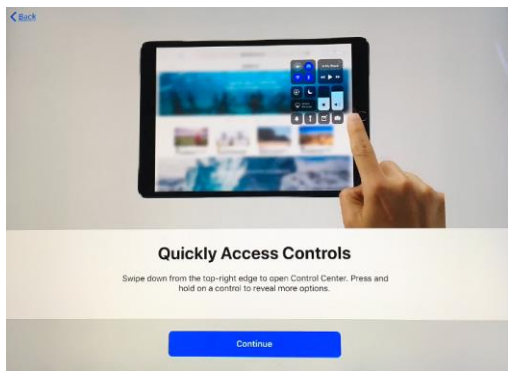

**VERY IMPORTANT: Tap *Install Updates Manually***

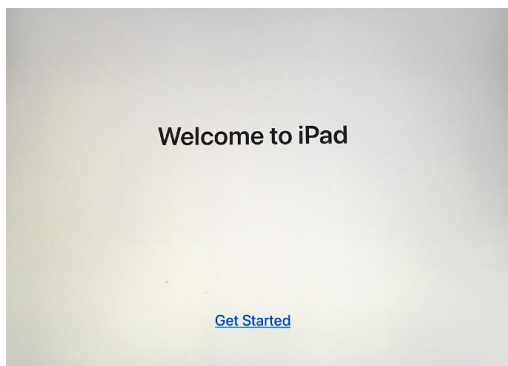

This is a new feature, you can choose either option.

Tap *Continue*

Tap *Continue*

Tap *Get Started*

## Updating via iTunes on your Computer

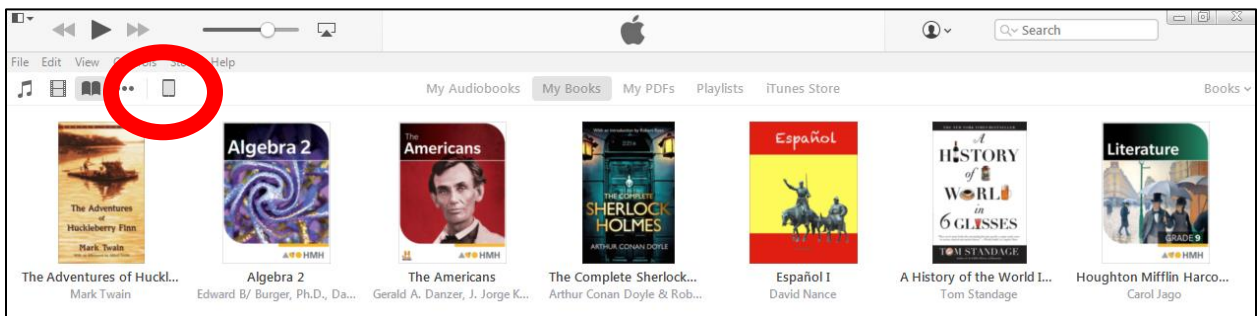

1) Connect your iPad to your computer using your lightning cord.

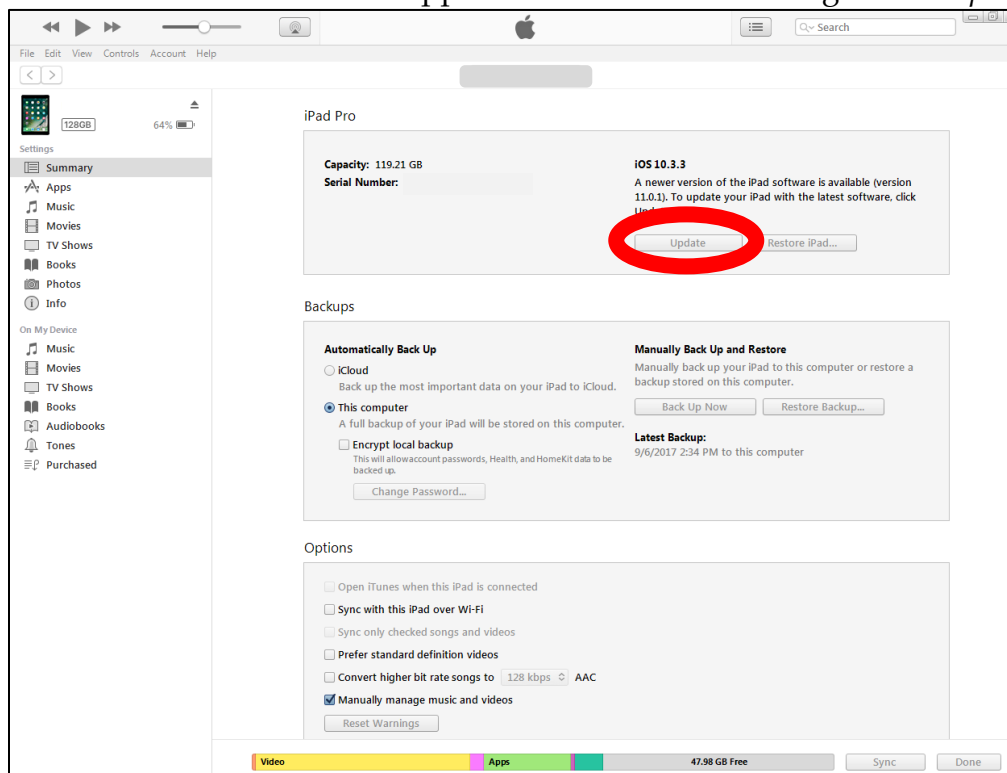

2) Open the latest version of iTunes on your computer.

3) Once iTunes has opened, click the iPad icon in the top-left corner.

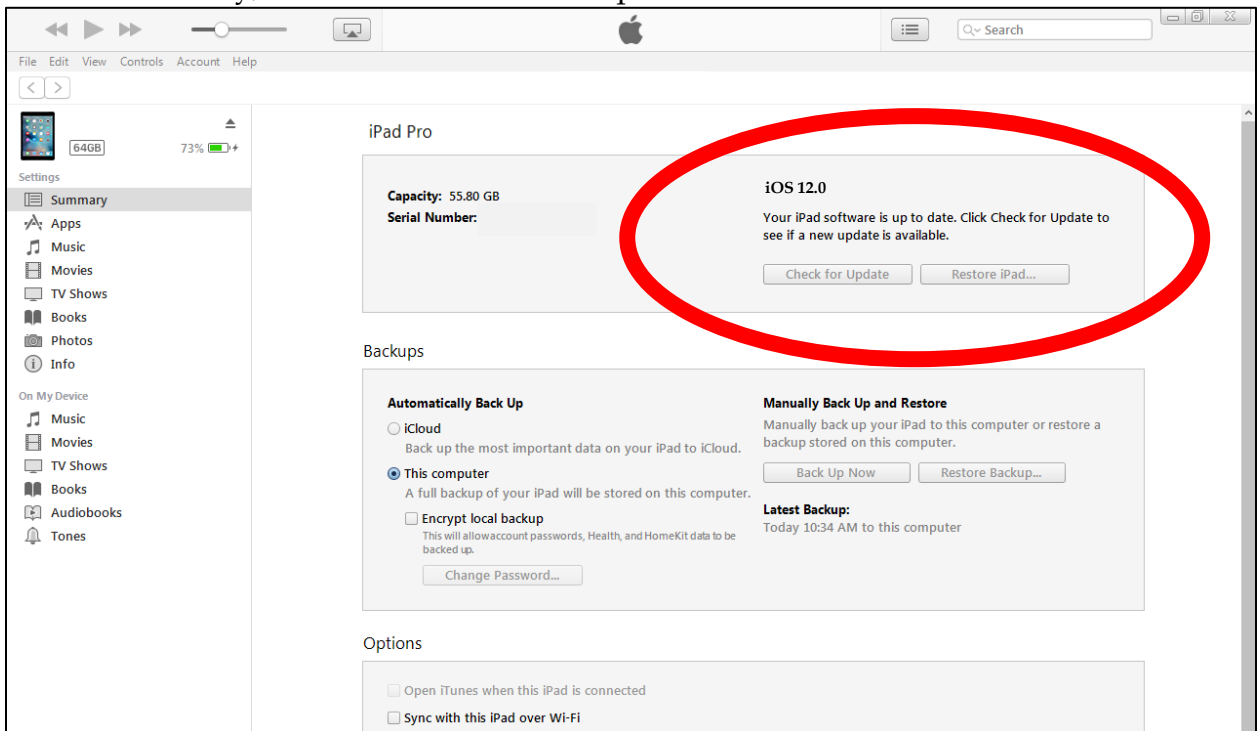

4) Your iPad's information will appear under the *iPad* heading. Click *Update*.

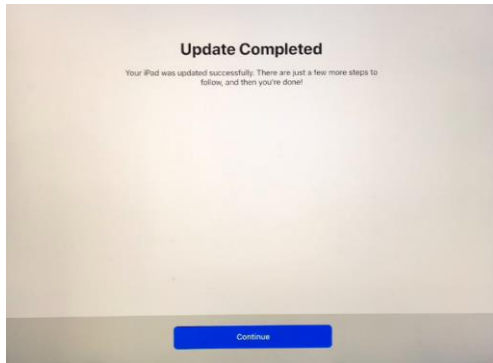

- 5) Your update will begin downloading, be patient as it will take a few minutes. Do not unplug the iPad from your computer.
- 6) Once the update is installed, your iPad will restart. Again, do not unplug your iPad or touch any buttons.
- 7) When your iPad has been fully updated it will turn itself back on. The new display in iTunes will say, "Your iPad software is up to date".

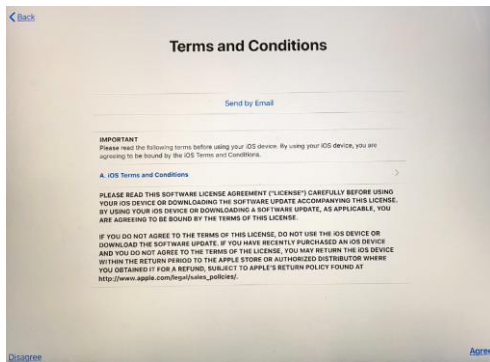

## After Updating to iOS 12
