Varsity coach will designate which of their levels will occupy their sports practice time and will communicate that accordingly. If a team chooses not to use their practice time slot, they should communicate that to the athletic office as soon as possible.

Please let Susie McNamara know if you ARE NOT using “Bad weather schedule” times on any designated day.

*This schedule has been created to address practices that could be affected by poor outdoor weather. It has been setup to allow teams to have indoor practice time and provide for each team to utilize each of the different time slots. The athletic director in conjunction with the coaches will declare a day as being a bad weather day and will announce which of the days’ schedules we will be following. This will be communicated to the students before the end of the school day and coaches should communicate with their teams how their program will proceed under that day’s bad weather schedule. This schedule takes effect on March 20th, as that will be the time in which outdoor sports will begin playing games. March 3rd thru March 20th practice times have already been scheduled.
