

How to Change the Name of Your iPad

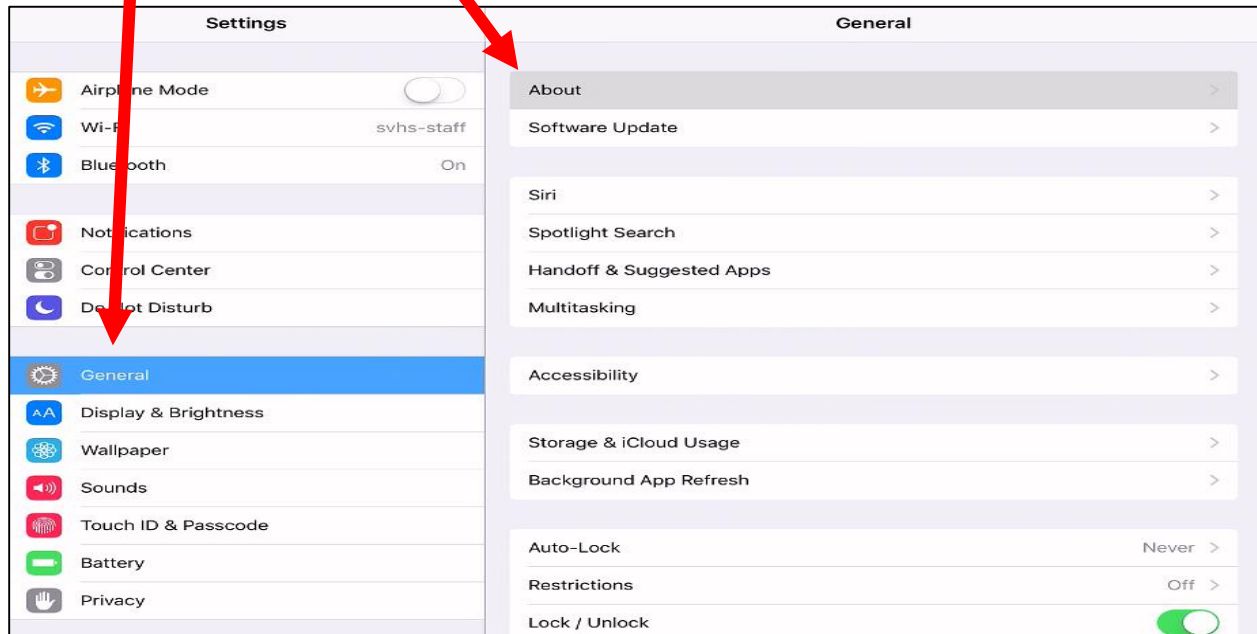

Per school rules, students may not rename their network connected device (iPad, tablets, laptops, cell phones, etc.) to anything other than their given legal name.

Please check the name of your iPad and if it is not your name, please change it.

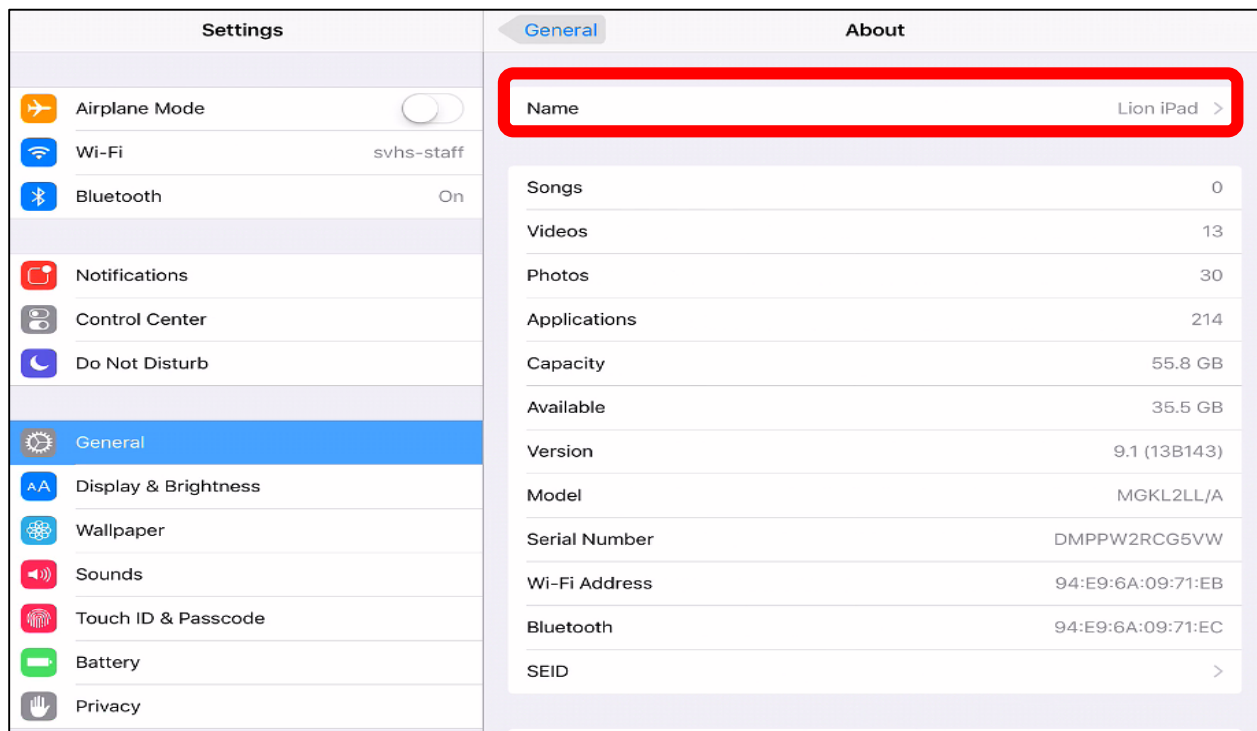

1) Open your iPad *Settings*

2) Tap *General* and then tap *About*

3) Tap *Name*

4) Clear the name field and now type in your legal given name.
